

MASTER'S DEGREE IN EDUCATIONAL FOUNDATIONS: INSTRUCTIONAL TECHNOLOGY FOCUS

Enhance your degree and broaden your options by becoming a leader in the area of instructional technology. All classes delivered online.

The Department of Educational Foundations and Leadership is pleased to offer a Master of Arts in Educational Foundation with an emphasis in Instructional Technology, beginning with the 2011 fall semester.

This 30-credit hour degree will develop skills in the design of effective technology-enhanced instruction, the production of multimedia learning resources, and the planning for successful integration and implementation of technology into the teaching and learning experience. The knowledge and skills acquired through the program prepare graduates for employment as technology facilitators in school districts, technology resource personnel in K-16 educational institutions, online teachers, training specialists and instructional designers in education, business, and government, as well as multimedia developers and specialists.

» Online Classes

All Instructional Technology classes will be delivered online.

» Tuition scholarships

You may qualify for an innovative financial incentive that awards one free credit for each five that you purchase. If you qualify, you'll save considerably on the cost of full tuition while earning your degree.

» Benefits:

- Increased collegiality and cohesiveness through cohort support
- New student orientation to meet with UA faculty and advisors
- Program Assistant to guide you through your program
- Registration for classes provided by Program Assistant
