

# EARN YOUR MASTER'S DEGREE CLOSE TO HOME OR SCHOOL

## Collegiality, Convenience, Low-Cost and Excellent Customer Service

The University of Akron College of Education is offering master's degree programs for busy educators at a low cost. The Outreach Office provides traditional educational opportunities to teachers limited by time, place and outside commitments. Programs and courses are delivered at alternative times and through a variety of formats to allow educators to complete a master's degree in as few as two years.

## Conveniently located classroom sites in Stark, Summit, Medina and Wayne counties

UA's current sites include: the Medina County University Center, Midpoint Campus Center, Wayne College, Copley High School, Green High School, Cuyahoga Falls High School, Summit County ESC, Stark County ESC, Canton McKinley High School, Barberton High School, Tallmadge Middle School, Euclid High School and Wadsworth High School. More sites will be added as the need grows for more programs. Not all master's degree programs are offered at every location.
